Against the Legislature. Special Disputch to the Philadelphia Journal. HARRISBURG, May 8 -A serious breach exists between Governor Cartie and the Logislature, which body has thus far refused to make any ap-

It is unferstood, however, in well-informed circles, that the real object is to pinch down the appropriation. The indignation of the volunt-ore in camp is intense, and with the slightest encourage-ment, the Legislature would be driven from the

SHOCKING APPAIR .- We learn from the Hopkins ville (Ky) Mercury that while three boys, sons of Louis Withers Thos Owen, and Lun Parse, were returning home from a muster at the Brick Church on the Princeton road, six miles from town, voung Payne proposed to his companions to stand off and let him snap a cap at them which he had just borrowed from one of the company. Owen presented his heart, while WITHERS SPRANG back just as PAYAE fired. The former received part of a load of buckshot in his stomach, while the latter received eight buckshot in his side, six passing out and two lodging in the firsh. Young Owns hagered in great pain until the poliowing evening, when he died. His companion is not dangerously wounded. Parse is all who owe, about seventeen yours old, and is feeble minded.

CHERRING NEWS FROM SUMNER COUNTY .- Gen. BARnow addressed a very attentive audience at Shackle Island in Sumner county yesterday, and we are gratified to learn that he made a fine impression upon those who desired information in regard to the measures upon which they are called to act. There were a few in that region who had been hesitating, but the plain and convincing arguments of Gen. Barnow satisfied them that it is their duty to sustain the whole action of the Legislature. It is evilent that all the people need is information upon the questions upon which they are to act. Let the questions be discussed and the people will be right. In Summer the people will be nearly or quite a unit in favor of both propositions submitted by the Legislature.

The New York Herald, seeing the necessity of removing the Capital from Washington, suggests New York city as the proper Capital of the old Union.

THE WAY THE GOVERNMENT PURISHES ITS DE-SERTERS .- At the St Louis Arsenal, cays a St. Louis paper, the deserters from the service are punished by mounting them on a tall hobby norse, nine or ten feet high, coming to a point at the top about four inches wide. The men sit on these and ride there from daylight till night, saving and excepting a rest of half no bour for brenkfast, an hour for dinner, and balf an hour for supper. The exercise, it may be judged, is not pleasant. The "borses" are not provided with saddles, and the seats not as "soft as downy pillows are." the sinning equestrians manage to tuck their contails under them f . relie", but others, size! wear roundshouts. A sentinel is stationed to prevent the riders from dismounting, and to hand them up water whenever they get thirsty.

The Cincinnatians have prevented the shipment of a number of horses that were coming South over the Covington and Lexington Railrand.
